

Đỗ Trọng Anh Tuấn

Hanoi, Vietnam · 6 years of frontend experience

I turn complex operations into clear, maintainable interfaces. My experience spans hands-on delivery, API integration, UI/UX collaboration, task breakdown, and frontend leadership across React, Next.js, and Vue 3 products.

REACT · NEXT.JS · VUE 3

BUILD · INTEGRATE · LEAD

HBLAB · VIETTEL · FPT

RECENT PROJECT TIMELINE · HBLAB JSC · JAN 2023 — PRESENT

- **OneAuto**

JAN 2026 — PRESENT

Frontend Developer · Full-time onsite · TASCO Group

Automotive workshop operations covering repair orders, accessory sales, and roadside assistance.

Impact — Owned requirement analysis, flows, frontend, APIs, validation, permissions, and testing; proposed an in-order customer/vehicle-owner drawer that was approved and delivered.

Vue 3 · TypeScript · Vue Router · Ant Design Vue
- **Commerce Convert**

MAR 2026 — MAY 2026

Frontend Lead · 50% allocation · Auto Magic

One-month React-to-Next.js conversion completed with one other frontend developer.

Impact — Evaluated libraries, guided the migration, and reviewed code to improve SEO and standardize the group framework.

React · Next.js · SEO
- **Property**

APR 2025 — PRESENT

Frontend Developer · Auto Magic

Modern rebuild of a legacy building-accounting and financial-information system.

Impact — Rebuilt the UI, investigated APIs, and helped the BA recover business rules from outdated documentation.

Next.js · Ant Design
- **HP Booster**

DEC 2024 — JUN 2026

Frontend Sub-lead · Led 3 FE · Tryhatch

Drag-and-drop marketing website builder migrated from React to Next.js.

Impact — Reassessed the frontend foundation, planned and coded the migration, improving SEO readiness and maintainability.

React · Next.js · SEO
- **KPro**

APR 2023 — JAN 2026

Developer → Frontend Lead · Auto Magic

Enterprise content platform with upload, file lists, and a deeply nested tree menu.

Impact — Led task breakdown, solutions, UI/UX, and reviews; built infinite scroll for large, deeply nested node sets to improve performance.

Next.js · Ant Design · Infinite scroll

CORE CAPABILITIES

PRODUCT FRONTEND

React · Next.js · Vue 3 · TypeScript · React Native

UI SYSTEMS

Ant Design · Storybook · Atomic Design · Playwright

INTEGRATION

REST APIs · Stripe · Google Maps · Terra Map · Grafana

LEADERSHIP

Requirement analysis · Task breakdown · Code review · UI/UX collaboration

ADDITIONAL PROJECT TIMELINE

- PFD Maintain

Reviewer only · 50% allocation · Auto Magic

Short extension adding PDF upload and viewing that had been absent from KPro.

Impact — Reviewed the solution and implementation; did not claim direct feature delivery.

React · Next.js · PDF

JUN 2025

■

MUSA PMS

Frontend Lead · 3 FE · MUSA

Admin product for work, time, leave, working days, and Gantt planning.

Impact — Led estimation and delivery, customized the gantt-task-react timeline, and reached customer acceptance.

React · gantt-task-react

DEC 2024 — MAY 2025

■

Grafana Customization

Frontend Developer · Yokogawa Digital

Reimplemented customer-specific behavior from a Grafana 6.3.4-based product on a 12.2 base.

Impact — Traced official source behavior, planned the customization, and directly built data retrieval and display changes.

React · Grafana source

DEC 2024 — JAN 2026

■

Kotoba Stripe

Frontend Developer · Kotoba

React payment and account experience combining multiple Stripe flows.

Impact — Researched Stripe, proposed payment UI, implemented the flow, and worked 1:1 in English with a nontechnical client; accepted.

React · Stripe

OCT 2024 — NOV 2024

■

WorkOrder

Frontend Lead · Auto Magic

Commercial workflow builder for multiple customer companies.

Impact — Led analysis, task breakdown and reviews, and directly built the workflow builder.

Next.js

AUG 2024 — FEB 2025

■

Workflow

Frontend Lead · Auto Magic

Internal workflow creation, task assignment, and progress tracking for a 4 FE / 3 BE team.

Impact — Analyzed requirements with the Comtor/BA, split frontend work, and built custom/master-data workflow creation.

Next.js

FEB 2024 — JUN 2025

■

Commerce

Frontend Tech Lead · 3 FE · Auto Magic

Building and financial-data management with Google Maps, Terra Map, and formula settings.

Impact — Decoded incomplete Japanese API documentation through testing, designed map flows, divided work, reviewed code, and built formula validation.

Next.js · Google Maps · Terra Map

AUG 2023 — JUN 2024

EARLIER EXPERIENCE

■

Viettel Software Service · Mobile Developer

Built and integrated the React Native registration flow for an internal Viettel Family application. Released for internal use; details remain confidential.

SEP 2022 — APR 2023

■

FPT Software · Software Engineer

AIA Components: React / Storybook / Playwright component system using Atomic Design, delivered 1:1 in English and accepted. Requirement Tool: CKEditor toolbar/plugin, formatting, paste, template, and validation logic.

SEP 2020 — AUG 2022

■

Education

FPT University
